Minutes of the Department meeting for the conduct of
Certificate Course in Green Computing

Date: 01-08-2020

The Department of Computer Science, a leader in catering to student needs, has made the decision to widen opportunities for individuals graduating from our College. There is a considerable need for graduates with Green Computing skills due to the expanding job market, which has been particularly visible in the globalized sector. With the straightforward objective of equipping graduating students with the requisite Green Computing skills, the Department of Computer Science has taken the initiative to provide a Certificate Course in Green Computing.

On 01-08-2020, the Department of Computer Science held a meeting with its members on the College's property. The conference was led by the department head, Mr B Maheswara Reddy, The Department unanimously decided to organize the Certificate Course in Green Computing for degree-seeking students at our College, with the lecturers serving as the course instructors and the Department Head serving as chairman. As promised, the Certificate Course would span 45 days.

Time 01:00

Maximum Marks: 50

Q 1. A typical computer monitor may contain more than 6 percent _____ by weight.

- a) PCBs
- b) Cadmium
- c) Mercury
- d) lead

Q 2. One's impact on the planet—there's no standard definition is _____.

- a) carbon footprint
- b) Heat
- c) Measuring
- d) Power

Q 3. Optimizing the life cycle of electrical and electronic equipment by improving supply chains is a prime objective of _____.

- a) NGO's
- b) StEP
- c) CRT
- d) USA

Q 4. The goal of the _____ task force is to enhance global recycling infrastructures, systems, and technologies while realizing sustainable e-waste-recycling systems.

- a) capacity building
- b) ReDesign
- c) ReUse
- d) ReCycle

Q 5. _____ implemented electronic waste disposal legislation prior to the EU WEEE Directive, but changed its legislation to include the EU's mandates.

- a) Austria
- b) Cyprus
- c) Belgium
- d) France

Q 6. "_____" is a tool for reducing storage and bandwidth consumed from diskbased backup.

- a) data de-duplication
- b) Virtualization

- c) Storage
- d) Management

Q 7. _____ company Excito offers a low-power, quiet Linux file and print server based on Debian Linux.

- a) Japanies
- b) American
- c) Swedish
- d) Rashian

Q 8. _____ is designed for write once, read occasionally (WORO) applications.

- a) Green Drives
- b) RAID
- c) MAID
- d) LCD

Q 9. _____ is a major component of your power consumption and, by extension, your IT budget.

- a) LED
- b) monitor
- c) pooling
- d) Cooling

Q 10. Use of _____ to block the open air above your racks that have been configured into a hot-aisle/cool-aisle layout.

- a) Rigid enclosures

Final Report of Certification Course in Green Computing

During this course, students delved deep into To develop Green IT Professionals who can assess, and develop strategies to reduce the carbon footprint and materials use of the ICT operations of an organization. Completing this course has added a new skill to their knapsack, empowering them to tackle programming challenges and contribute effectively to Green Computing. The aforementioned course began on August 03, 2020, and ended on September 24, 2020. The pupils' response was very positive. The Seminar Hall was crowded with eager students for its first presentation.

The principal, Mr. B K Krupender Reddy, spoke to the students and informed them of the significance of technology in both the social and business spheres. He also praised the work of the department of Computer science and complimented Sri.B.Maheswara Reddy, HOD, who served as the course's architect. The course had a high turnout of students. Regular attendance for the classes, which ran from 04.00 PM to 5:30 PM, was 40 students.

The sessions were engaging, educational, and fascinating. The students were able to comprehend how to learn and understand Green Computing with the use of hands-on activities, films, handouts, seminars, quizzes, suggested books, and engaging exercises. The pupils' confidence level was raised via brainstorming sessions, discussions, group exercises. The complete course took place; The Course ran its entire course of 45 days and also took informal inputs from the students for making the course better next time.

After the successful completion of the said Certificate course, a valedictory function was held on 24th September 2020. The Principal of the College, graced the occasion. The meeting was presided over by the HOD, B. Maheswara Reddy. Vote of thanks was proposed by other members.

Minutes of the Department meeting for the conduct of Certificate Course in Floral Arrangement and Bouquet Preparation

Date: 10-09-2020

The Department of Botany, a leader in catering to student needs, has made the decision to widen opportunities for individuals graduating from our College. There is a considerable need for new graduates with job market, which has been particularly visible in the globalized sector. With the straight forward objective of equipping graduating students with the requisite practical abilities, the Department of Botany has taken the initiative to provide a Certificate Course in Floral Arrangement and Bouquet Preparation.

On 10-09-2020, the Department of Botany held a meeting with its members on the College premises. The conference was led by the department head, K.Sippy Issac and the Department unanimously decided to organize the Certificate Course in Floral Arrangement and Bouquet Preparation for degree-seeking students at our College, with the lecturers serving as the course instructors and the Department head serving as chairman. As promised, the Certificate Course would span 45 days.

STYLES OF FLOWER ARRANGEMENT

Like all art forms, flower arrangement has different styles and leading artists in the field, are likely to prefer one style to another. Basically there are four styles of flower arrangement.

WESTERN / TRADITIONAL

These are mass arrangements. They are often elaborate, with attractive containers. Usually the arrangements have some kind of symmetry.

JAPANESE / IKEBANA

Simple, sober arrangements highlighting line, rhythm and mood. These arrangements frequently have a religious symbolism that dates back to the origins of this art.

FREESTYLE

Is based on the creativity of the individual, using a blend of both Western and Japanese.

MODERN

Are based on structural designs and geometrical patterns.

JAPANESE

SUBJECT	1 1/4 to 2 X Vase
SECONDARY	2/3 of Subject 45°L
OBJECT	1/3 of Secondary 60°R

WESTERN

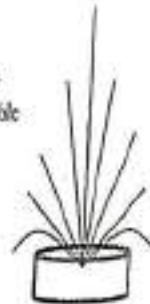

Front-facing

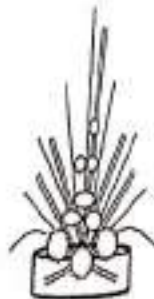

1. ESTABLISH THE HEIGHT OF ARRANGEMENT
Place stem as far back in the pinholder as possible

2. CREATE THE PARAMETERS FOR THE SHAPE

3. FILL IN THE OUTLINE TO CREATE A BACKDROP
If necessary build up successive backdrops in front depending on the size of the arrangement

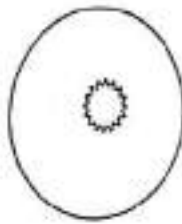

4. CREATE A FOCAL POINT
Add fillers wherever necessary

5. VARY THE ANGLE OF PLACEMENT
This creates the three-dimensional effect

WESTERN

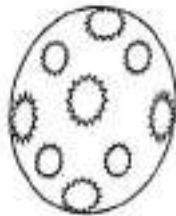

All-round

1. ESTABLISH THE HEIGHT OF THE ARRANGEMENT
Place the stem in the centre of the pinholder

2. ESTABLISH THE OUTLINE
Vary the angles to create consecutive 'skirts'

3. COMPLETE THE ARRANGEMENT
Add fillers and line the base of the arrangement with ferns/leaves

A **flower bouquet** is a collection of flowers in a creative arrangement. Flower bouquets can be arranged for the decor of homes or public buildings, or may be handheld. Handheld bouquets are classified by several different popular shapes and styles, including nosegay, crescent, and cascading bouquets. Flower bouquets are often given for special occasions such as birthdays, anniversaries or funerals. They are also used extensively in weddings as well as Olympics Medal Ceremonies. Bouquets arranged in vases or planters for home decor can be arranged in either traditional or modern styles. Symbolism may be attached to the types of flowers used, according to the culture.

History

Fresh flowers are arranged in front of houses to

celebrate Onam, a major celebration in Kerala, India. A Japanese ikebana flower bouquet in a vase.

Beach Wedding Bouquet

The arrangement of flowers for home or building decor has a long history throughout the world. The oldest evidence of formal arranging of bouquets in vases comes from ancient Egypt, and depictions of flower arrangements date to the Old Kingdom (~2500 BCE). The sacred lotus was often used, as were herbs, palms, irises, anemones, and narcissus.^[1] In some cultures, ancient practices still survive today, for example in ikebana, the art of flower-arranging that comes from Japan. The oldest known book on flower-arranging is Japanese and dates from 1445. Simplicity and linear form are core features of ikebana, which has had a great influence on Western flower arranging since the late 19th century.^[2]

Flower-arranging as an art form was brought to Japan by Buddhist monks, who learned it while in China. In ancient China, flower-arranging developed into a highly refined art form, based on the principle that life is sacred, including the life of plants, therefore cut flowers were used sparingly in carefully planned arrangements. Flowers were a traditional ritual offering among Buddhists, however, and remain so.^[3] In Europe, flower arranging as a formal art was first documented among the Dutch, who "in particular, painted wonderful informal arrangements of flowers [...] In the 18th century, arrangements were used to decorate the houses of the wealthy families and the aristocracy."^[4]

Flower symbolism is common in many cultures, and can be complex. In China, certain flowers symbolize seasons: white plum blossoms represent winter, peach and cherry blossoms represent spring, lotus represents summer, and chrysanthemums the fall.^[5]

Nosegay

Further information: Nosegay

The term "tussie-mussie" is sometimes used interchangeably with nosegay. A nosegay was also known as a "talking bouquet" or "flower poesy" during the Victorian era, when they became a popular gift.^[6] Traditionally, brides will also carry a small nosegay. Tussie mussies were introduced to England in the early 18th century, and were a fashionable accessory for young women by the early 19th century.^[7] A tussie mussie is a small circular bouquet like a nosegay, but carries symbolic meaning based upon the language of flowers, where particular flowers represent specific sentiments. They were commonly exchanged by lovers, who sent messages to one another based upon the flowers used in the bouquet. Traditionally, tussie mussies are arranged in a cone- or cornucopia-shaped container, made of tin or silver, with a chain attached for carrying the bouquet.^[8]

Language of flowers

Further information: Language of flowers

Flower symbolism originated in Asia and the Middle East, where certain flowers, such as the lotus, were considered sacred, or at least to be associated with spiritual themes. This was often reflected in artwork, for example the use of bamboo in Chinese art to represent longevity and eternity. The language of flowers was introduced to England in the early 18th century by Mary Wortley, Lady Montague, whose husband was Ambassador to Turkey. By the Victorian era, almost every flower had a specific meaning attached to it. Small nosegay or "tussie mussie" bouquets might include chamomile flowers, which a woman might send to a romantic interest to tell him "Patience"; goldenrod represented indecision.⁸⁸

Wedding bouquets

Traditionally the bride will hold the bouquet, and the maid of honor will hold it during the ceremony. After the wedding the bride will toss it over her shoulder, and it is believed that whoever catches the bouquet is the next in line to be married.⁸⁹ This practice may be related to the Golden Apple of Discord myth.⁹⁰

Wedding bouquet shapes

There are many different bridal bouquet styles from which to select. Brides typically choose the shape of their bouquets according to popular trends at the time of their wedding; however, some choose bouquets which evoke another time period. While the language of flowers can contribute to a message to be conveyed about the couple, the shapes are a personal preference.

The Posy bouquet is typically round in shape and is thought of as modern due to the small size and relative simplicity of the arrangement. It is also popular for the ease of carrying and passing-off during the ceremony. It can be composed of an expensive flower, such as a rose, or can be a sampling of country flowers.

The Cascading bouquet is usually a large arrangement which tapers near the bottom. It was popularized as the arrangement of choice for the 1980s at the wedding of Lady Diana Spencer and the Prince of Wales at Westminster Abbey. It can, and is often, made up of many types of flowers and is enhanced with Baby's Breath and different types of greenery, such as ivy. This bouquet became less popular as bridal trends shifted towards simplicity; however, it has found a resurgence in recent years.

The Presentation bouquet saw a surge in popularity at the turn of the twentieth century. It is most frequently composed of a long-stemmed bud, such as the Calla Lily, and is cradled in the bride's arms, rather than carried by the stems.

Final Report of Certificate Course in "Floral Arrangement and Bouquet Preparation"

Floral arrangement and bouquet preparation was organized by the Department of BOTANY for College students. By offering a certificate course in floral arrangement and bouquet preparation for 45 days, the Department of Botany has made a modest start in its effort to teach and enhance the students' practical knowledge of the FLORAL ARRANGEMENT AND BOUQUET PREPARATION. The primary goal of the course, as previously decided, was to impart FLORAL ARRANGEMENT AND BOUQUET PREPARATION knowledge to the departing pupils. The demands of the final year students were taken into consideration when creating the course's fundamental framework. The aforementioned course began on September 21 2020 and ended on November 05, 2020. The pupils' response was very positive. The Seminar Hall was crowded with eager students for its first presentation.

The principal spoke to students and informed them of the significance of technology in both the academic and business spheres. He also praised the work of the department of Botany and complimented K. Sippy Issac HOD, who served as the course architect. The course had a high turnout of students. Regular attendance for the classes, which ran from 05.00 PM to 6:30 PM, was 40 students.

The sessions were engaging, educational, and fascinating. The students were able to comprehend how to learn and understand FLORAL ARRANGEMENT AND BOUQUET PREPARATION with the use of on-site activities, films, handouts, seminars, quizzes, suggested books, and engaging exercises. The students' confidence level was raised via brainstorming sessions, discussions, group exercises, and impromptu presentations. The complete course took place; The Course ran its entire course of 45 days and also took informal inputs from the students for making the course better next time.

After the successful completion of the said Certificate course, a valedictory function was held on November 2020. The Principal of the College graced the occasion. The meeting was presided over by HOD of Botany at end of program K. Sippy Issac Lecturer in Botany proposed the vote of thanks.

Final Report of Certification Course in commerce

Department of Commerce, under the guidance of the Principal came up with idea of Tally for the students of the College. The Department of commerce has made a humble beginning to impart and enrich the students with hands on tally by conducting a certificate course in Tally for the duration of 45 days. As it was resolved earlier, the main thrust of the course was to inculcate knowledge in Tally for the out-going students. The basic structure of the course is prepared keeping in view the needs of the final year students. The said Course was started on 2/1/21 and completed on 3/2/2021

The response from the students was overwhelming. In its introductory session the Seminar Hall was jam-packed and students enthusiastically wanted to be the part of it. the principal, addressed the students intimating them about the importance of Technology in social and corporate realms. He also appreciated the effort of commerce Department and congratulated Sri T Gangadhar, HOD, Commerce Department, who was the guiding force behind the entire course. The number of students attended the Course was good. 20 Students regularly attended the Classes conducted from 2.30 P M to 4.00 PM.

The sessions were interactive, informative and interesting. The usage of hands on, videos, hand-outs, seminars, quiz's, suggestive books and interesting worksheets helped the students to grasp the tips to learn and understand Tally. There were brain-storming sessions, debates, group activities and impromptu presentations which enhanced the confidence level of the students. The Course ran its entire course of 45 days and also took informal inputs from the students for making the course better next time.

After the successful completion of the said Certificate course, a valedictory function was held on 5/2/2021. The Principal of the College, graced the occasion. The meeting was presided over by the HOD (commerce),

Sri T Gangadhar. In his opening remarks, the Head of the Department explained the need and necessity of introducing the Certificate course. The Principal advised the students to make use of the in-puts given by the Department of commerce. Certificates were distributed to the all 20 students.

POWER OF SIMPLICITY

Tally.ERP 9 at a Glance

syllabus

Accounting – It is the most important feature of Tally ERP. the very first thing that comes to anyone's mind after listening about Tally is Accounting.

Billing – Billing is a significant part of any business. As and when you pass an accounting entry synchronously a bill is generated which you can use for raising or sending an invoice. Most people believe that Billing is a part of Accounting which is not true when it comes to business. Billing Option present in Tally eliminates the task of entering separate accounting.

Payroll – This feature can be used when you have a good number of employees. To maintain Payroll in Tally, functions such as employee groups, employee categories, pay heads, attendance, and course employees are used.

Banking – In this era of digitalization, no business can survive without Banking. With the help of Tally ERP, TDS GST both direct and indirect tax can be calculated automatically and its returns will be also be filed online.

Taxation – For any business to survive it shouldn't operate in isolation. The Business should work in cooperation with State as well as Central Government by paying appropriate Taxes. Calculation of Taxes based on the income, sale, and dispatch is quite hectic. Tally makes it easy for you to prepare any bill or invoice as it can give VAT, Income Tax, Excise, Customs, Service tax, etc.

Inventory – Maintenance of Stock is of utmost importance for any business. It's vital as it gives better control over business sales. Thus, the movement of stock is an integral part that can be kept in control.

Respected Sir,

I would want to suggest that our college hold a certificate programme water analysis. The demands of departing students are now more regularly communicated to the Department of Chemistry. From the lowest to the highest levels of employment, water analysis has become helpful to students. The Department of Chemistry is excited to start the course taking into account all of these factors.

The details of the program are

1. Name of the proposed program
2. Duration and timings of the program
3. Start date of the program
4. Course fee
5. No. of students expected for admission

Minutes of the Department meeting for the conduct of
Certificate Course in water analysis

Date: 2/11/2020

The Department of Chemistry, a leader in catering to student needs, has made the decision to widen opportunities for individuals graduating from our College. There is a considerable need for new graduates with practical skills due to the expanding job market, which has been particularly visible in the environment sector. With the straightforward objective of equipping graduating students with the requisite practical environment abilities, the Department of Chemistry has taken the initiative to provide a Certificate Course in Water analysis.

On 2/11/2020, the Department of Chemistry held a meeting with its members on the College's property. The conference was led by the department head, B. Krupender Reddy and attended by, Dr. Venkatesh, and B. Venkanna lecturers in Chemistry. The Department unanimously decided to organize the Certificate Course in water analysis for degree-seeking students at our College, with the lecturers serving as the course instructors and the Department Head serving as chairman. As promised, the Certificate Course would span 45 days.

Final Report of Certificate Course in water analysis

A majority of the ~~people~~ students completed the course 45 days. The water quality management in India is performed under the provision of Water (Prevention and Control of Pollution) Act, 1974. The basic objective of this Act is to maintain and restore the wholesomeness of national aquatic resources by prevention and control of pollution. The Act prescribes various functions for the Central Pollution Control Board (CPCB).

Poor water quality has its most direct impact on aquatic wildlife, particularly fish, bugs and plants. Excess nutrients, sediment, road salt, and other contaminants can reduce the variety and hardness of organisms living in the states' waters.

Hence, Department of Chemistry has decided to introduce Certificate Course in Water Analysis to enhance proficiency and practical knowledge in Water Chemistry with the humble intention of imparting necessary knowledge on water analysis and quality parameters of water to the outgoing students. The course started on 02/11/2020 and completed on 18/12/2020. The Certificate course was conducted for a period of 45 days with 30 hours of theory and 15 hours of practicals from 3.00 pm to 4.00 pm off the college hours.

**Final Report of Certification Course in Rural Entrepreneurship Opportunities,
Finance and Marketing**

By offering a certificate course in Rural Entrepreneurship Opportunities, Finance and Marketing for 45 days, the Department of Economics has made a modest start in its effort to teach and enhance the students with knowledge on Rural Entrepreneurship. The primary goal of the course, as previously decided, was to impart knowledge about Rural Entrepreneurship to the departing pupils. The demands of the final year students are taken into consideration while framing the course's fundamental framework. The aforementioned course began on October 27, 2020, and ended on December 9, 2020. The pupils' response was very positive.

The principal, B. Krupendar Reddy, spoke to the students and informed them of the significance of Agriculture and Industries. He also appreciated the work of the department and complimented Dr. B. Jayachandrudu, HOD, who served as the course's architect. The course had a high turnout of students. Regular attendance for the classes, which ran from 05.00 PM to 6:30 PM, was 20 students.

The sessions were engaging, educational, and fascinating. The students were able to comprehend how to learn and understand Finance and Marketing with the use of handouts, seminars, quizzes, suggested books, and engaging exercises. The pupils' confidence level was raised via brainstorming sessions, discussions, group exercises, and imprompt presentations. The complete course took place. The Course ran its entire course of 45 days and also took informal inputs from the students for making the course for next time.

After the successful completion of the said Certificate course, a valedictory function was held on December 18, 2020. The Principal of the College, Sri Sri B. Krupendar Reddy graced the occasion. The meeting was presided over by the HOD (Economics), Sri B. Jayachandrudu. At the end of program Sri Venkata Narsaiah, Lecturer in Political Science, proposed the vote of thanks.

Department of English

Final Report of Certificate Course in commonly used English words with Telugu meaning

Commonly used English words with Telugu meaning Programme was developed by English department with the help of the Principal for college students. By offering the 45-day Certificate course in communication skills, the English Department has made a humble beginning in its efforts to teach and improve students' practical knowledge of accounting software. The main objective of the course, as decided earlier, was to impart English language skills to the departing students. The requirements of final year students are taken into account when creating the basic framework of the course. The above mentioned course started on 16.10.2020 and ended on 10.12.2020. The feedback from the students was very positive. The seminar hall was full of students waiting for their first presentation.

The Principal, spoke to the students and knowledgeable them of the importance of generation in both the social and enterprise spheres. He additionally praised the paintings of the department of English and complimented Sri.P.Mallibabu, HOD, who served as the route's architect. The periods were attractive, academic, and fascinating. The scholars were able to recognize a way to study and understand English with the usage of arms-on sports, movies, handouts, seminars, quizzes, recommended books, and attractive physical games. The pupil's confidence degree becomes raised through brainstorming classes, discussions, organization sporting activities, and impromptu displays. The complete direction took place; the course ran its complete direction of forty five days and additionally took informal inputs from the scholars for making the direction higher next time. Upon the successful completion of the aforementioned Certificate programme, a farewell celebration was organized on the last day of the programme. The event was graced by the college's principal. B. Paul Raj, the HOD, presided over the meeting. The idea for a vote of gratitude came from other members.

Respected Sir,

I would want to suggest that our college hold a certificate programme Basic Arithmetic the demands of departing students are now more regularly communicated to the Department of mathematics. From the lowest to the highest levels of employment, Basic Arithmetic has become fruitful to students. The Department of mathematics is excited to start the course taking into account all of these factors.

The details of the program are

A Certificate Course in Basic Arithmetic

SYLLABUS

Unit 1: Number Operations and Basic Calculations

1. Whole numbers:
 - Understanding place value
 - Addition, subtraction, multiplication, and division of whole numbers
 - Order of operations (PEMDAS/BODMAS)
2. Fractions and decimals:
 - Understanding fractions and decimals
 - Equivalent fractions and simplification
 - Addition, subtraction, multiplication, and division of fractions and decimals
3. Percentages:
 - Introduction to percentages
 - Converting between fractions, decimals, and percentages
 - Calculating percentages of quantities
4. Ratios and proportions:
 - Understanding ratios and proportions
 - Solving ratio and proportion problems
 - Applications of ratios and proportions in real-life situations

Unit 2: Problem Solving and Basic Algebra

1. Word problems:
 - Identifying and understanding word problems
 - Translating word problems into mathematical expressions or equations
 - Applying arithmetic operations to solve word problems
2. Basic algebraic concepts:
 - Introduction to variables and constants
 - Simplifying algebraic expressions
 - Solving simple linear equations
3. Measurement and geometry:
 - Units of measurement (length, weight, volume, etc.)
 - Solving problems involving measurement conversions
 - Basic concepts of geometry (lines, angles, polygons)

This simplified syllabus covers the essential topics in Basic Arithmetic, including number operations, fractions, decimals, percentages, ratios, proportions, problem-solving, basic algebraic concepts, and measurement. While this condensed course may not cover all the intricacies of arithmetic, it can provide a foundation for further studies and practical applications.

Certificate Course in Basic Arithmetic

Time 02:00 Hrs

Maximum Marks: 50

Section A: Multiple Choice Questions (10 marks) Choose the correct answer and mark it on the answer sheet provided.

1. What is the result of $7 + 3$? a) 10 b) 14 c) 21 d) 30
2. Simplify the expression: $4 \times (5 + 2) - 3$. a) 24 b) 25 c) 26 d) 28
3. Which of the following is the largest number? a) 0.5 b) 0.25 c) 0.75 d) 0.1
4. What is the value of $9 \div 3 + 2 \times 5$? a) 10 b) 15 c) 25 d) 45
5. Simplify the expression: $2^3 + 4 \times 2$. a) 12 b) 16 c) 18 d) 20
6. Which of the following is an odd number? a) 12 b) 16 c) 18 d) 21
7. Calculate the average of 12, 16, and 20. a) 12 b) 16 c) 18 d) 20
8. What is the result of 5×0 ? a) 0 b) 1 c) 5 d) None of the above
9. Simplify the expression: $9 - (3 + 4 \times 2)$. a) 1 b) 2 c) 3 d) 4
10. What is the value of 2^4 ? a) 8 b) 12 c) 16 d) 32

Section B: Short Answer Questions (20 marks) Answer the following questions briefly but with all necessary steps shown.

11. Solve the equation: $4x - 3 = 9$.
12. Find the area of a rectangle with a length of 8 cm and width of 5 cm.
13. If a bag contains 30 marbles, of which 20 are red and the rest are blue, how many blue marbles are there?
14. Calculate the simple interest for a principal amount of \$5000, an interest rate of 3.5%, and a time period of 2 years.
15. Solve the following proportion: $\frac{3}{4} = \frac{x}{16}$.

Section C: Problem Solving (20 marks) Solve the following problems thoroughly, showing all necessary steps.

16. A store offers a 15% discount on all items. If an item originally costs \$80, what will be the discounted price?
17. A train travels at a speed of 60 km/h. How far will it travel in 2.5 hours?

Final Report of Certification Course in Basic Arithmetic

Everyday Mathematics was developed by the Department of Mathematics with the help of the Principal, for the College's students. By offering a certificate course in Basic Arithmetic for 45 days, the Department of Mathematics has made a modest start in its effort to teach and enhance the students with practical knowledge. The primary goal of the course, as previously decided, was to impart Mathematics knowledge to the departing pupils. The demands of the final year students are taken into consideration when creating the course's fundamental framework. The aforementioned course began on November 16, 2020, and ended on February 10, 2021. The pupils' response was very positive. The Seminar Hall was crowded with eager students for its first presentation.

The principal, Dr. B Krupender Reddy, spoke to the students and informed them of the significance of technology in both the daily life and Competitive life. He also praised the work of the department of Mathematics and complimented Dr. K Appala Naidu HOD, who served as the course's architect. The course had a high turnout of students. Regular attendance for the classes, which ran from 05.00 PM to 6:30 PM, was 25 students.

The sessions were engaging, educational, and fascinating. The students were able to comprehend how to learn and understand Mathematics with the use of hands-on activities, seminars, quizzes, suggested books, and engaging exercises. The pupils' confidence level was raised via brainstorming sessions, discussions, group exercises, and impromptu presentations. The complete course took place; The Course ran its entire course of 45 days and also took informal inputs from the students for making the course better next time.

After the successful completion of the said Certificate course, a valedictory function was held on 10th February 2021. The Principal of the College graced the occasion. The meeting was presided over by the HOD, Dr. K Appala Naidu. Vote of thanks was proposed by other members.

Final Report of Certificate Course in

Poultry Broiler Management

Poultry Broiler Management Programme was developed & designed by department of zoology with the help of the Principal for III B.Z.C students. By offering the 45-days Certificate course in Poultry Broiler Management has made a humble beginning in its efforts to teach and improve students' practical knowledge for livelihood. The main objective of the course, as decided earlier, was to impart commercial strategy and to create awareness from rural area students. The requirements of final year students are taken into account when creating the basic framework of the course. The feedback from the students was very positive.

The Principal, spoke to the students about the self-employment skills and knowledgeable them of the importance of rich protein values and low cholesterol, as the population is enormously increasing day by day the government also insist animal husbandry and poultry farming in the rural areas. The government also provided financial subsidy to the poultry farmers.
